

MARCH NEWSLETTER

Over many years, I have repeatedly been asked if my Animal Communication courses are suitable for children. My answer has mostly been yes, based on the child's age.

Most children are natural animal communicators. Society's norms and values have not yet impacted on them the falsehood that animals and plants cannot speak to them and that they, as humans, cannot possibly hear their replies. This of course makes it far easier for the child to trust and therefore accept that Animal Communication is not only possible but also easy.

Therefore, I have designed a fun filled course that is suitable for children aged 7 - 13. The course includes a lot of "games" that help improve children's active and already present intuition. The workshop manual is easy to read and beautifully illustrated with simple illustrations. We will work with live animals including fish (if available), dogs and cats and also learn how to speak to animals on photos. This obviously depends on the availability of the animals.

All in all, the day will be fun filled and most importantly of all, your children will be equipped to share in the wonderful world of the plant and animal kingdom.

The next Children's Animal Communication Course will be on the 11th of April.

For course registration, please either contact me or register online.

I would also like to mention that all my readings and workshop manuals have been typed and designed by my friend and administration expert Angela Steinmetz. She can be contacted on +27 (0) 72 401 1421 or emailed at angrstein@gmail.com should anyone, anywhere in the world require her skills which includes creating spreadsheets in MS Excel, presentations in MS PowerPoint and documents in MS Word. (Of course for those like me, non of this means anything so I just ask Angela to do anything that I want and she makes it happen. Always without any stress or bother to me.)

In my April Newsletter, I will cover the very interesting topic of Energy House Clearing.

Please email info@zeropointhealing.co.za with suggestions about topics you'd like me to cover in future newsletters.

LOVE AND LIGHT

Debbie
